OBJECTIVE STATEMENT

Seeking entry-level position that will utilize my software development knowledge and problem-solving capabilities to make a measurable impact in a passionate team where learning and innovation are valued. Skilled with developing full stack web applications, analyzing and modeling data, and communicating effectively in teams.

EDUCATION

The University of Georgia; Athens, GA
Bachelor of Business Administration in Economics, May 2017
Certificates in Computer Science and Entrepreneurship

TECHNICAL SKILLS

Languages: JavaScript, Java, Python, SAS
Front end*:*   React, React Native (iOS and Android), HTML, CSS (Bootstrap/SASS), and Redux
Back end: Node.js, JSP/Servlets, Express, MySQL, MongoDB, and RESTful APIs
Integration: Git, Agile development, Webpack, Mocha, wireframing (Adobe XD), Heroku, and web hosting/deployment

WORK EXPERIENCE

Paralegal, *Epiq Global*; Atlanta, GA
September 2018–Present
  o Assess and mark up documents relevant to pending litigation for privilege, confidentiality, and redaction

Full-Stack Development Bootcamp, *Covalence*; Nashville, TN
March 2018–July 2018
  o Selected for an immersive, in-person full stack web application and mobile software development program
  o Completed training in JavaScript, React, Node, Express, MongoDB, server deployment, RESTful APIs,
     React Native for mobile application (Android and iOS) development, Git, and Agile development methodology
  o Visit my personal portfolio site at alanpramuk.com to see open source blog, typing speed game, interactive
     phone app game, and other projects that I have developed

Web Developer, *Duluth Cooperative Ministry*; Duluth, GA
November 2017–February 2018
  o Designed, developed, and deployed new website for local non-profit
  o Created custom admin portal to update sections of website, developed a robust contact form, integrated secure
     payment portal for donations, and utilized Google Analytics for customer insights
  o Conducted bi-weekly design and functionality meetings with Philanthropy director
  o Exercised HTML5, CSS3, and JavaScript (ES6) responsive web design and optimization best practices

Undergraduate Research Assistant, *Department of Economics*; Athens, GA
January–May 2017
  o Performed regression testing and advanced statistical models using SAS after cleaning and formatting census datasets
  o Prepared ad hoc analysis reports for professor to discern insights on how financial literacy, risk tolerance, and
     goals-based savings behavior interrelate across various demographics

Marketing Lead, *Big Mouth Athens;* Athens, GA
 September 2014–July 2015
  o Student-led startup company named Finalist in UGA's Next Top Entrepreneur contest
  o Delivered and negotiated service agreements with initial 3 clients for critical proof of concept phase, assisted with
     business strategy and pricing, and communicated across functional teams to ensure deadlines were met

Sales Internship, *Vivint Home Automation*; Chicago, IL
May–July 2013
  o Generated $28,000 of revenue selling home automation contracts-cold contact, door to door

LEADERSHIP EXPERIENCE

Front End Developer, *Code for the Kingdom Hackathon*; Nashville, TN
February 2018
  o Translated design markups into high-fidelity HTML and CSS (Bootstrap) code for front-end
  o Awarded 2nd place for developing TakeNote: web app for users to collaboratively discover, post, save, and tag content

Peer Tutor, Athens, GA
Spring 2013–Fall 2016
  o Taught students in Java, managerial and financial accounting, pre-calculus, and micro and macroeconomics

Philanthropy Chair, *Theta Chi Fraternity;* Athens, GA
 January–December 2013
  o Founded chair position, documented responsibilities for position, and executed first philanthropy event
